STAT

Dear Howard:

I have just now received your letter of 23 November. Apparently my channels of communication are not very well established.

I am in complete agreement with every suggestion you have made. We have re-done the SOP and, during a short meeting with General Caldera, completed a review of its contents. Your main problem of becoming involved in PIO releases has been eliminated from the new procedure and, in general, we have placed most of the responsibilities on the Headquarters, USAF, Project Group.

I hope this letter reaches you before next Wednesday, the 14th, since I hope to be at your station on that date. Our conversations with General Caldera indicated that any future incident of this nature will be handled much more smoothly.

Best regards to you and Kay. I will see you next week.

Sincerely yours,

STAT
